

SYED AMMAR UDDIN

IT Support Specialist — Tier 1/Tier 2

Peshawar, Pakistan | 0333 9289045 | syedammaruddin@gmail.com | linkedin.com/in/syed-ammar-uddin | Open to remote & on-site

PROFESSIONAL SUMMARY

IT Support Specialist with 15+ years resolving Tier 1/2 tickets across Windows and macOS environments for remote, multi-tenant, and enterprise clients. Track record of measurable impact: cut escalation rates by 18% through self-service documentation, improved endpoint response times by 15% via proactive RMM monitoring, and reduced hardware downtime by 10%. Skilled in cloud/identity administration (M365, Google Workspace, Azure AD/Entra ID), endpoint security (SentinelOne, BitLocker, FileVault), and MDM/RMM tooling (JAMF Pro, N-able). Comfortable owning tickets end-to-end under SLA pressure, and equally effective on-site or fully remote.

TECHNICAL SKILLS

Helpdesk & Ticketing: Halo PSA, Zendesk Service Desk, SLA Compliance, Incident Triage, Asset Management

Cloud & Identity: Microsoft 365, Google Workspace, Azure AD (Entra ID), MFA/Duo Security, User Provisioning & Lifecycle Management

Operating Systems: Windows 10/11, Windows Server, macOS (Sonoma/Ventura/Monterey)

MDM & RMM: JAMF Pro, N-able RMM, MDM Enrollment Profiles

Endpoint Security: SentinelOne EDR, Malwarebytes, BitLocker, Apple FileVault, OS Patching & Vulnerability Remediation

Networking & Hardware: TCP/IP, Cloudflare DNS, VPN Configuration, Outlook (.ost/.pst) Triage, Boardroom AV Setup

PROFESSIONAL EXPERIENCE

IT Support Specialist — Spectrolix (Remote)

Feb 2025 – Present

- Resolved high-volume Tier 1/2 tickets via Halo PSA, consistently meeting strict client SLA turnaround targets.
- Owned the full user onboarding/offboarding lifecycle — email provisioning, digital identity setup, and secure asset allocation.
- Maintained remote Windows and macOS endpoints, keeping assets fully patched, secure, and encrypted (BitLocker/FileVault).
- Monitored endpoint health via N-able RMM, deploying automated diagnostic scripts that improved response times by 15%.
- Administered Apple device deployments through JAMF Pro, pushing software packages and configuration profiles fleet-wide.
- Managed Cloudflare DNS updates and domain record changes to sustain corporate email and web connectivity.

IT Support Specialist — MACIT Consulting Pty Ltd (Remote)

Sep 2023 – Jan 2025

- Administered multi-tenant M365 and Google Workspace platforms — user accounts, custom domains, SharePoint permissions, Teams troubleshooting.
- Managed Azure AD (Entra ID) credentials and enforced MFA policy via Duo Security.
- Monitored device health via SentinelOne EDR, running scans and deploying security patches to remote endpoints.
- Provisioned hardware configurations for new hires, validating access permissions and software alignment before deployment.
- Authored internal knowledge-base and how-to documentation, reducing escalation rates by 18%.

MIS Officer — Lucky Cement Ltd (On-Site)

Jan 2010 – Sep 2023

- Served as primary on-site technical contact for administrative and plant operations, resolving hardware, software, and connectivity issues.
- Diagnosed and serviced enterprise hardware — desktops, laptops, network printers — cutting unplanned downtime by 10%.
- Administered on-prem Active Directory: user permissions, GPOs, organizational units, shared drives, and VPN profiles.
- Supported enterprise software operations including SAP Business One and Outlook directory/database management.
- Configured boardroom AV and video conferencing (Skype, Zoom Rooms) for executive meetings and investor events.
- Delivered technical literacy and security awareness training across departments.
